Subject: Dioxin/Furan PRGs and RALs

Bob and Jim, several meetings ago, the LWG raised the idea of modeling more than one congener for dioxins/furans. We are still waiting to hear from you whether you want to proceed in this manner (and commitment that Windward would be able to provide the FWMs for the individual congeners). We are not going to expend the resources unless you indicate that this is the path which you wish to proceed. We brought this issue up at the last FS meeting. Since it has been several weeks since we had this discussion, it is imperative that we hear from you by the end of today or we will proceed with the process we have already developed.

Regards,

Kristine Koch
